- **Safety norm:** acc. to European CENELEC requirements, UV type III
- **Number of safety goggles:** 2

## Product highlights

### Even tan - Reflector system

The reflector system makes more efficient use of the UV light and gives you a more even tan.

### Mechanical 60-minute timer

The mechanical 60-minute timer allows you to set the preferred length of your tanning session.

### Carrying grip for easy transport

Pick up your product easily with the carrying grip.

### Tube life of 500 hours

The Philips Cleo tubes have a minimum life of 500 hours. After 500 hour, the lamps should be replaced for optimal performance.

### 2 pairs of eye-protecting goggles

Two pairs of goggles are included, to protect your eyes from the UV light.

### Auto Stop - 60 min

Automatically shuts off after 60 minutes, for your safety. This prevents you from tanning too long (e.g. if you fall asleep while tanning).

### 4x15W Philips Cleo Compact tubes

Philips Cleo 15W tubes ensure highly effective tanning. The lamps give you a beautiful, natural tan.

### Focussed tanning field 27x21cm

The focused tanning field of 27x21cm covers all of your face, so even the sides of your face get a great tan.

### Two stand positions

The angle of the tanning field is adjustable, so that the light reaches your face at an optimal angle. The angle can be set in two positions so you can enjoy your tanning session in the position that is most comfortable for you.
